

Industry 4.0

A compass to navigate the numerous facilitations that the lawmakers have introduced in recent years to companies under the National Industry 4.0 Plan: this is what is proposed as the “Industry 4.0” volume, published by Mayli editore. The seven chapters of the text are dedicated to: super and hyper amortization, Sabatini-ter, guarantee funds for SMEs, tax credit for research and development, competence centers, innovative start-ups and innovative SMEs, patent boxes ...
