

## **Tax free shopping no stamp at customs**

The new version of Otello (Otello 2.0, the system of digitalization of the process related to tax free shopping), interacting with the invoice data transmission system (in XML format), allows people to prove the exit of personal goods that non-EU travelers bring outside the Italian territory, for purposes of the VAT refund pursuant to art. 38-quater of Presidential Decree 633/72. In particular, the stamp of the Customs office when leaving the territory is no longer necessary ...
